

Scope of Pathway & Patients covered

Scope of Pathway

This policy applies to medical staff, registered nurses and midwives and appropriate allied healthcare workers employed by Worcestershire Acute Hospitals NHS Trust. Registered nurses, midwives and allied healthcare staff will be supported by the Trust Patient Group Direction for “Adrenaline (Epinephrine) Administration in Anaphylaxis (adults)”, Reference number: DA/AG/04.

Training is provided via the trust IV therapy course and IV therapy update, or Resuscitation Council (UK) ILS or ALS course (PiLS or EPLS for paediatrics). Additional specific training may be arranged as appropriate for some staff groups. A basic awareness of anaphylaxis recognition and summoning help is provided through the trusts mandatory training programme for all clinical staff.

Patients covered
