

WAHT-TP-108

Guideline

“Anaphylaxis Treatment Algorithm” – Resuscitation Council UK – see appendix 1

Drug protocol - Adults:

See appendix 1

- Adrenaline **1:1,000** in red emergency drug box or individual “anaphylaxis packs” (where available)

Drug protocol – Children:

See appendix 1

- Adrenaline **1:1,000** in red emergency drug box or individual “anaphylaxis packs” (where available)

Documentation

- Record the time of onset and circumstances immediately preceding symptoms and document clinical features
- Complete ‘2222 Emergency Call Report’ form if 2222 call is made

Follow up / education

- Children under 16 – refer to WAHT paediatric allergy clinic
- Patients over 16 – refer to GP / further specialist allergy advice – immunology clinic where appropriate
- Provide information on Adrenaline auto-injectors where prescribed

Follow-up Blood Tests

- See appendix 2
