Specialty Clinical Key Document Page

Please note that the clinical key documents are not designed to be printed, but to be viewed on-line. This is to ensure that the correct and most up to date version is being used. If, in exceptional circumstances, you need to print a copy, please note that the information will only be valid for 24 hours and should be read in conjunction with the Key Document Supporting Information and/or Key Document Intranet page, which will provide approval and review information.

If you find any problems with this website or have any queries, please email wah-tr.SYST-KeyDocs@nhs.net

Review date - 16th December 2019
This is the most current document and should be used until a revised version is in place
- [Management of Hyperosmolar Non-Ketotic State \(HONK\), Hyperlycaemic Hyperosmolar State \(HHS\)](#)
Review date - 16th December 2019
This is the most current document and should be used until a revised version is in place
- [Guideline for the management of Hyperlycaemia in acute coronary syndromes](#)

From here the relevant key documents will be listed for the specialty.

You can also use the search button to search for documents (referred to as assets in the search results) or pages.

Type a keyword into the search button

A screenshot of the search results page. The top navigation bar includes 'Site Map', 'Text Size: Larger / Normal / Smaller', 'Log In/Log Out', a search bar, and the 'Search' button. Below this is a blue banner with the title 'Worcestershire Key Documents' and the NHS logo for 'Worcestershire Acute Hospitals NHS Trust'. A horizontal menu contains links for 'Home', 'Types of Key Documents', 'Specialty/Department Key Document Pages', 'Trustwide Key Documents', and 'Patient Information'. A secondary menu has tabs for 'Edit', 'Live', 'Properties', 'Options', 'Interaction', and 'Activity'. Under 'Live', there are sub-tabs for 'Content', 'General', 'Scheduling', 'Categories', and 'Metadata'. The main content area shows search results for 'glucose', indicating 9 matches found. The results are categorized into 'Page' and 'Asset'.
