### Worcestershire Acute Hospitals NHS Trust Key Document Webpage

Please use links below

- [Specialty/Department Key Documents](#)
- [Trustwide Documents](#)
- [Patient Information](#)

APPROVED FOR PUBLICATION BY CLINICAL GOVERNANCE

The main purpose of key documents is to standardise practice and service delivery to reflect the best available evidence thereby reducing unjustified variations, hence improving quality. Having effective, up to date and easily followed key documents minimises risk to patients, employees and the Trust.

Key documents included within this website all comply with the trust governance procedures and the Policy for development, management and approval of key documents. [View Policy](#)

For further information or for assistance with any aspect of this process or website, please contact the NICE and Key Documents Team. Elaine Chapman, NICE and Key Documents Manager

## Ophthalmology Key Documents

Please note that the clinical key documents are not designed to be printed, but to be viewed on-line. This is to ensure that the correct and most up to date version is being used. If, in exceptional circumstances, you need to print a copy, please note that the information will only be valid for 24 hours and should be read in conjunction with the Key Document Supporting Information and/or Key Document intranet page, which will provide additional information including approval and review dates

- Ophthalmology Key Documents**

[Nurse led indocyanine green angiography](#)

Review date - 15th August 2019

This is the most current document and should be used until a revised version is in place

[Joint Ophthalmology and Microbiology Microbial Keratitis guideline](#)

Review date - 25th March 2021

This is the most current document and should be used until a revised version is in place

Page last updated: 11 April 2019

You can also use the search button to search for documents (referred to as assets in the search results) or pages.

Type a keyword into the search button

The screenshot shows the 'Worcestershire Key Documents' search results page. At the top, there is a blue header with the NHS logo and 'Worcestershire Acute Hospitals NHS Trust'. Below the header is a navigation menu with links: 'Home', 'Types of Key Documents', 'Specialty/Department Key Document Pages', 'Trustwide Key Documents', and 'Patient Information'. The main content area features a toolbar with tabs for 'Edit', 'Live', 'Properties', 'Options', 'Interaction', and 'Activity'. Underneath, there are sub-tabs for 'Content', 'General', 'Scheduling', 'Categories', and 'Metadata'. The search results are displayed under the heading 'Search', showing a search for 'angiography' with 4 matches found. Two results are listed under the 'Page' section: 'Ophthalmology Key Documents' and 'Full List of Key Documents'. Below these, there is an 'Asset' section with 'Fluorescein Angiography' and 'Nurse led indocyanine green angiography'. At the bottom of the search results, there are buttons for 'New Search', 'Refine Search', and 'Search Within Results'. The page footer indicates it was last updated on 26 November 2018.
