Trauma and Orthopaedics Key Documents

Please note that the clinical key documents are not designed to be printed, but to be viewed on-line. This is to ensure that the correct and most up to date version is being used. If, in exceptional circumstances, you need to print a copy, please note that the information will only be valid for 24 hours and should be read in conjunction with the Key Document Supporting Information and/or Key Document intranet page, which will provide approval and review information.

Key Documents

[Operational guidelines for Occupational Therapy assessment and treatment of adults with traumatic head injury](#)

Review date - 26th October 2019

This is the most current document and should be used until a revised version is in place
