

Appendix 3 – Additional Microbiology Laboratory Notifiable Organisms

URGENT: Telephone to HPU

ROUTINE: Notify via CoSurv (Electronic Reporting)

Organism	Whether likely to be Routine or Urgent
Bacillus anthracis	URGENT
Bacillus cereus (if associated with food poisoning)	URGENT
Bordetella pertussis	ROUTINE
Borrelia spp	ROUTINE
Brucella spp	ROUTINE
Burkholderia mallei	ROUTINE
Burkholderia pseudomallei	ROUTINE
Campylobacter spp	ROUTINE
Chikungunya virus	ROUTINE
Chlamydia psittaci	ROUTINE
Clostridium botulinum	URGENT
Clostridium perfringens (only if associated with food poisoning)	ROUTINE
Clostridium tetani	ROUTINE
Corynebacterium diphtheria	URGENT
Corynebacterium ulcerans	URGENT
Coxiella burnetii	URGENT
Crimean-Congo haemorrhagic fever virus	URGENT
Cryptosporidium spp	ROUTINE
Dengue virus	ROUTINE
Ebola virus	URGENT
Entamoeba histolytica	ROUTINE
Francisella tularensis	ROUTINE
Giardia lamblia	ROUTINE
Guanarito virus	ROUTINE
Haemophilus influenzae (invasive)	URGENT
Hanta virus	ROUTINE
Hepatitis A	URGENT
Hepatitis B	URGENT
Hepatitis C	ROUTINE
Hepatitis Delta	ROUTINE
Hepatitis E	ROUTINE
Influenza virus	ROUTINE
Junin virus	ROUTINE

Organism	Whether likely to be Routine or Urgent
Kyasanur Forest disease virus	ROUTINE
Lassa virus	URGENT
Legionella spp	URGENT
Leptospira interrogans	ROUTINE
Listeria monocytogenes	ROUTINE
Machupo virus	ROUTINE
Marburg virus	URGENT
Measles virus	URGENT
Mumps virus	ROUTINE
Mycobacterium tuberculosis complex	ROUTINE; urgent if healthcare worker, suspected cluster or MDR
Neisseria meningitidis	URGENT
Omsk haemorrhagic fever virus	ROUTINE
Plasmodium falciparum	ROUTINE
Plasmodium knowlesi	ROUTINE
Plasmodium ovale	ROUTINE
Plasmodium malariae	ROUTINE
Plasmodium vivax	ROUTINE
Polio virus wild or vaccine types	URGENT
Rabies virus (classical rabies) and rabies-related lyssaviruses	URGENT
Rickettsia spp	ROUTINE
Rift Valley fever virus	ROUTINE
Rubella virus	ROUTINE
Sabia virus	ROUTINE
Salmonella spp	URGENT (S typhi and paratyphi only)
SARS coronavirus	URGENT
Shigella spp	URGENT (S dysenteriae, flexneri, boydii only)
Streptococcus pneumonia (invasive)	ROUTINE
Streptococcus pyogenes (invasive)	URGENT (iGAS only)
Varicella zoster virus	ROUTINE
Variola virus	URGENT
Verocytotoxigenic Escherichia coli (including E coli 0157)	URGENT
Vibrio cholera	URGENT
West Nile Virus	ROUTINE
Yellow fever virus	ROUTINE
Yersinia pestis	URGENT
